### Professional Summary

Full Stack Developer proficient in **MERN stack** technologies (**MongoDB, Express.js, React.js, Node.js**). Bringing 8 years of prior experience in accounting with strong analytical and problem-solving skills, and a recent transition into software development. Passionate about building scalable web applications, APIs, and microservices. Seeking a challenging role in a fast-paced and collaborative environment where I can leverage my expertise in **JavaScript, RESTful APIs**, and cloud services (AWS, Azure). Adept at working with modern development tools, continuous integration (CI/CD), and agile methodologies to contribute to impactful projects.
